

PMIG 200 III

The PMIG 200 II is an advanced IGBT Multi-process Synergic Inverter Welder. Manual and Synergic controls. Multi-process with single pulse / double pulse. Excellent welding for carbon steels, stainless steels and aluminium. Light weight and compact design.

- Multi-Process Synergic Inverter Welder
- Pulse / Double Pulse Mig (GMAW), Stick (SMAW)
- Equipped with voltage and thermal protection
- IP21S Protection Class
- Adjustable ending current / voltage and inductance
- Step-less welding wire feeding speed (A) and voltage (V) adjustment knobs
- Digital welding parameters display
- Built-in soft wire feeding, post-gas burn-back and bal cutting
- Adjustable: Hot start, Arc Force for MMA welding

TECHNICAL DATA:

Input Power (V)	220
Rated Input Current 1 eff' (A)	16.2
Max Input Current (A)	36.3
Rated Input Capacity (KVA)	8.36
Open Circuit Voltage (V)	71
Welding Current Range (A)	MIG 30 - 200 MMA 25 - 200
Duty Cycle (A)	20% @ 200
Weight (KG)	11
Wire Feed (mm)	0.8 - 1.2
Electrode Size (mm)	1.6 - 4.0
